Journey Men’s Shelter  
Atlanta, GA

Journey is a year-round shelter located at 1026 Ponce De Leon Ave in the City of Atlanta. Journey serves homeless men, helping them transition to self-sufficiency. We provide shelter, case management, transportation, showers, storage, laundry, and food for up to 26 men each day. Men are referred to the program from several partner organizations and usually stay 3-6 months. During that time Journey staff identify and address obstacles to them getting a job and finding permanent housing.

Interns will provide support to our Case Manager as he develops and monitors Individualized Service Plans for the clients. They will help evaluate the men and provide guidance as to the best way to have them move forward. They will also provide administrative support by updating and entering some data into the Homeless Management Information System (HMIS) run by the State of Georgia.
