WHAT IS CPE?

Clinical Pastoral Education (CPE) is interfaith professional education for ministry. It brings theological students and ministers of all faiths into supervised encounters with persons in crisis.

Out of an intense involvement with persons in need and the feedback from peers and teachers, students develop a new awareness of themselves as persons and better understand the needs of those to whom they minister.

CHAPLAINCY AT GHS

Chaplains at GHS provide a safe and confidential relationship to discuss physical, emotional, and spiritual concerns. They serve as a liaison between patients and their religious communities. Sensitive and confidential care is provided to patients of diverse religious backgrounds and spiritual preferences. In addition to patients and family members, chaplains offer the supportive care to staff as necessary.

CPE at GHS

The GHS program in Clinical Pastoral Education is accredited for Level I, Level II, and Supervisory Education with the Association for Clinical Pastoral Education.

LOCATION

The CPE program operates on the Greenville Memorial Hospital campus which is the state's largest acute care hospital. It contains a 24-hour Level I trauma center and dedicated chest pain center, children's hospital and ER, pediatric ICU, and highest level neonatal ICU. Its cardiac and women's services are among the largest in South Carolina. Cancer, rehabilitation, behavioral health, and wellness services are all located on the campus as well.
